

boosts **collections** and **payments**

THE CHALLENGE

The Swordfish team wanted to introduce a friendly and easy-to-use automation solution to aid users in setting up a payment plan and to pay debt. It was also important to ensure the solution was available 24/7 and accessible on multiple channels.

HOW WE HELPED

FCB.ai launched an end-to-end debt collection and payment solution that enables customers to set up a suitable payment plan and to pay debt, which is facilitated through a secure payment gateway.

INTEGRATIONS
